

Leadership Development Center

Premiere Execution of Your Project

**Leadership
Development
Center**

3213 Pasadena Blvd, Pasadena, TX 77503

Why APM?

Home to our own trainings and in-house projects, we've made the investment needed to empower our leaders. As such, our facility has offered flexible solutions for various projects and partnerships with the UBC, IBB, UA, IAM and others.

Our 90,000 sqft facility offers meeting spaces with state of the art technical abilities. Our industrial Deck offers a spacious work environment with onsite machining and welding, with tools and materials furnished by our campus tool center and local vendors. APM's standard for excellence makes our Leadership Development Center a clear choice - make it the home and premiere solution for your next active project.

The Deck (Industrial Space)

Pictured: The Deck Crane (Left) and The Deck Staging Area (Right)

The Deck: Our 60,000 square foot deck area is a state of the art industrial space, fully equipped to accommodate your trainings or active work projects. Technology expertise include **Turbines** (GE, Alstom, Hitachi, Westinghouse, Siemens, Brown Boveri), **Generators** (GE, Allis Chambers, Brush, Brown Boveri, Alstom, Hitachi, Siemens, Westinghouse), **Valves** (MSV, CV, RSV, Governor, Digital Upgrades), **Boiler** (CE, Foster Wheeler, B&W, Babcock Power), **Mills** (CE and B&W), **Compressors** (Axial, Barrel, Centrifugal, and Reciprocating). This space is complete with staged training Gas turbines, (8) welding booths, (1) machine shop area, and a 75/25-ton overhead crane. Limited onsite machine tools, precision measuring tooling, and sandblasting are also supported. Material and equipment support supplied from on-campus tool center, as well as local vendors with abilities for large machining, large sandblasting, and NDE.

Since its completion in 2016, The Deck has been the home of all hands-on industrial training for APM. In addition to internal projects, APM has welcomed outsourced events and active job work, including Weld Trainings, Blade Tech Trainings, Project Superintendent Trainings. Repair Under Roof services and Kit Assembly services, using standard superintendent and craft manpower, supplemented with our welding booths and overhead crane usage.

Meeting and boardroom areas can be made available to host workouts and meetings with prior agreement.

The LDC (Event & Meeting Space)

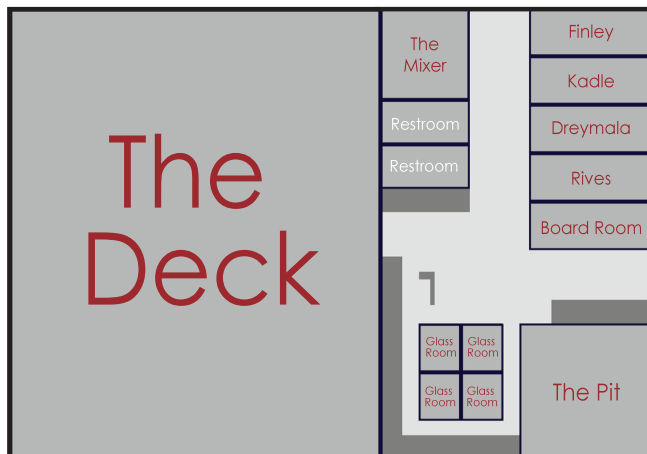

Pictured: The Pit (Left) Large Conference Room (Right)

Large Conference Room: Our opened Large Conference Room includes a total of 4 screens: (2) 189" retractable projection screens (center), and (2) 125" retractable projection screens (ends), 4 HD projectors, 4 standard hand-held microphones, "Crestron" software audio/visual setup (HDMI/VGA connection), built-in surround sound, 4 podiums, 8 seating columns with 7 rows each (connected tables), approximately 4 chairs per row, **seating capacity of 224.**

A full list of rooms, capabilities and seating capacities can be furnished upon request.

The Deck area can be made available to host trainings and job services with prior agreement.

All of our accommodations offer high-speed internet connectivity via Wi-Fi and full access to **The Mixer** which features comfortable seating and a beverage station stocked with coffee. We also offer accommodations for additional requests, such as securing catering with local restaurants and vendors.

We are excited for you to welcome excellence! Contact us today!
