

# Construction & Maintenance Solutions

**Safety**

**Quality**

**Integrity**

## EMPOWERING THE PEOPLE WHO POWER LIFE

### We have your solutions

APM is a wholly-owned affiliate of GE, delivering expert craft and technicians to jobsites in the Americas.

Our APM team executes outages with industry leading safety, quality, integrity, and efficiency. We provide highly-skilled multi-craft experts with proficiency in power services, aeroderivatives, industrial, power conversion, renewables, coal, and oil & gas maintenance. Our expertise extends from rotating machinery to boilers, HRSGs, pulverizers, rigging, and specialty services including specialized blading, welding, machining, and piping.

APM successfully executes more than a thousand jobs, translating to more than 4 million manhours each year. This is possible because of our broad expertise and deep talent pool of more than 30,000 skilled craft professionals and technicians from various trades.

APM selects the best, most highly qualified craft professionals for outage solutions so that every jobsite has every expertise necessary to deliver world-class results.

APM is a wholly owned affiliate of the General Electric Company.
